At the company headquarters in Oranienburg, North of Berlin, TEC artec GmbH develops, sells and manufactures proven products for the gas and power plant industry. Engineering and services for valves and systems round off our range of products and services. Increasing market requirements and specific customer requirements are realised due to constant new and further developments.

**HRB-Nummer:**  
142597 B  
Amtsgericht Charlottenburg

With the membership of the AVK Group, the company has a strategic partner with which we market our high quality and innovative products worldwide and use the synergies of the group in the sales and purchasing areas.

**Geschäftsführer**  
Tobias Demuth  
Bjarne Olesen

We can thus get involved and participate in the worldwide current market developments in the power plant and gas industry. Our in-house Service department with trained and specialist personnel enables global inspections, maintenance and accordingly maximum customer support.

**Bankverbindung**  
Mittelbrandenburgische  
Sparkasse Potsdam  
Kontonr.: 1000 967 332  
BLZ: 160 500 00

Together with their staff of experienced employees, they look forward to serve existing as well as new customers and suppliers.
